Sant Llorenç del Munt i l'Obac Natural Park

Cliffs and passes. The park's unique landscape is formed of cliffs and monoliths made from reddish conglomerate (known locally by the name of *pinyolenc*), which contrast with the green of the pine and oak forests that dominate the foot of the mountain and its passes.

Sant Llorenç del Munt monastery, built on the summit of La Mola, is the most emblematic monument in a massif in which neolithic archaeological remains, hermitages and country houses also abound.

KEY INFORMATION:
 Year in which it was declared a natural park: 1987
 Year in which the Special Plan was approved: 1972
 Supervisory body: Department of Territory and Sustainability of Barcelona Provincial Council
 Surface area of the park: 13,694 ha

Sant Llorenç del Munt i l'Obac Natural Park

Getting to the park on public transport

You can reach Sant Llorenç del Munt i l'Obac Natural Park with the integrated public transport system (buses and trains) on Saturdays, Sundays and public holidays (except Christmas and New Year). Buses to Estenalles hill, Mura and Talamanca depart from the Renfe train station and Pla del Bonaire in Terrassa making various stops in between. Consult timetables and fares at: parques.diba.cat/busparc

Useful advice for visiting the park

Good practices

The protected natural spaces are places where one can practise outdoor activities and learn about our natural and cultural heritage. Use the network of marked paths and trails.

Use of bicycles

- Respect the priority of pedestrians and avoid causing inconvenience to them.
- Adjust your speed in accordance with the type of path. On trails, the maximum speed permitted is 20 km/h.
- Cycle only on roads, forest trails or paths that are more than 3 metres wide.
- For justifiable reasons, in certain areas of the park cycling may be restricted temporarily or permanently.

Follow advice on the use of motor vehicles.

Motor vehicles

- The use of motor vehicles is limited to public trails; travelling cross-country across firebreaks or over streams and riverbeds is not permitted.
- Remember that the maximum speed permitted on paths is 30 km/h.
- Moderate your speed in order to avoid collisions with people or wildlife.
- The noise caused by some vehicles is harmful to certain sensitive species, such as birds of prey, which may abandon their nesting areas.
- Erosion caused by skidding causes potholes and ditches to appear on the path network. Drive with moderation and restraint, particularly on slopes and when the ground is wet.
- Do not park in front of chains that cut off access to paths or on road verges.

Visit the park safely

- Plan your route and always bring a map to guide you.
- Try to always walk along trails or paths that are clearly marked or signposted.
- Bring water and food supplies and wear appropriate footwear, comfortable clothing and a coat, as well as a cap, sunglasses and sunscreen.

- If you are in a group, do not lose sight of your companions. Do not ever abandon or leave anybody behind.
- Strong wind can cause branches and other elements to fall. The risk of accidents may be increased on peaks and crests. Avoid open spaces during high wind conditions.
- When it is foggy, it is easy to become disoriented; do not leave the main path.
- In the event of downpours or thunderstorms, stay away from peaks, isolated trees and cave entrances. A dense and leafy forest may provide suitable refuge.

What to do with litter

- It is the responsibility of visitors to take the waste that they have created away with them and to recycle it.

How to help prevent fires

- It is prohibited to light fires or barbecues outside authorised areas.
- Exercise caution with anything that could cause fires, such as cigarettes, driving/motorcycling or dropping litter.
- Raise the alarm if you detect any suspicious smoke. Call 112.

Pets

- Pet owners are responsible for their behaviour not disturbing the activity or inhabitants of the park or other visitors.
- Keep your dog on a lead. You must take special care with regard to the behaviour of your dog or other pets, particularly when you are close to people, farmhouses or flocks.
- Clean up animal excrement, particularly in areas with a high number of visitors.
- Never abandon pets; such negligence is classified as an offence. Animals can become aggressive, as well as being harmful to natural ecosystems.
- In addition to being kept on a lead, dangerous dogs must also wear a muzzle. By dangerous dog we mean that which is classified as such in law, but also any dog that behaves aggressively.

Other recommendations

- ❄️ If there is a risk of snow or if it has snowed, check road and trail conditions on the park's website. Drive cautiously, respect the signals and signs of guards and wardens.
- 🏠 Free camping in any form is not permitted, including motor homes.
- 🏛️ Human presence and activity have left behind a host of architecture and art over the years. This rich cultural heritage must be respected.
- 🌿 Respect the nature and the peacefulness of the environment. Avoid making unnecessary noise.
- 🐄 Respect agricultural and stockbreeding activities, since they provide the livelihood of many of the park's inhabitants.
- 🌲 Forestry is a traditional activity in most of the parks. Tree felling is regulated by the Forestry Act of Catalonia and park regulations.
- 🦋 To protect native wildlife populations, it is prohibited to release pets or non-native animals that could displace them from their habitat.
- 🐗 Hunting is regulated by law and is only allowed in existing hunting grounds. If you encounter a wild boar drive, you must respect the signs and not stray from the paths.
- 🐎 Horse riding must be restricted to public paths; cross-country riding and riding on firebreaks or streams and riverbeds is not permitted.
- 🍄 If picking mushrooms, do not damage the forest by using tools or digging into the earth.
- 🌰 Chestnuts and pine cones are the food source of various animal species, as well as an economic resource for forest owners. Collect them in moderation and always with permission from the owners.
- 🌿 Holly is a rare tree that provides food and shelter for many species of animals. It is protected by law and collecting any part of the tree or its flowers is an offence.

Borrowing adapted equipment

At Casa Nova de l'Obac you will find information about the hire service for adapted equipment including handbikes, tandems, Joëlette chairs, third wheels to adapt the user's wheelchair, horizontal walking supports for the visually impaired and different tactile materials. The service is free of charge but reservations must be made in advance by filling out a hire form. Tel. (+34) 937 435 468 | (+34) 937 855 461. You can also find more information at parcs.diba.cat/web/accessibilitat

European Charter for Sustainable Tourism

Sant Llorenç del Munt i l'Obac Natural Park is accredited with the European Charter for Sustainable Tourism (ECST), a management tool to ensure that tourism in the park is developed in line with the area's conservation. The following companies are accredited with the ECST and participate in the park's tourism strategy to offer high quality services for sustainable tourism:
