

Signposted routes

These are circular routes that return to the starting point, except routes marked with an asterisk (*). The routes are designed to reveal the richness of the natural and cultural heritage of different places within the park and are usually adapted for families.

- 1** **GR 5** The lookout trail. From Sant Celoni to Sant Iscle de Vallalta*
Starting point: Can Batlle housing development (Sant Celoni).
- 2** **GR 83** The northern path or Canigó path. From Mataró to Sant Celoni*
Starting point: Can Pineda (Mataró).
- 3** **GR 92** Mediterranean path. From Tordera to Llinars del Vallès*
Starting point: Can Burgada farmhouse (Tordera).
- 4** **PR-C 146** From Calella to Tordera*
Starting point: Calella lighthouse.
- 5** **PR-C 216** From Canyamars to El Corredor sanctuary
Starting point: Plaça de l'Església in Canyamars.
- 6** **SL-C 70** La Batllòria to Can Puig mountains
Starting point: Carrer del Camí Ral (La Batllòria).
- 7** **SL-C 71** Pedra Gentil dolmen
Starting point: Montseny street (Vallgorguina).
- 8** **SL-C 72** The Corredor plain
Starting point: El Corredor sanctuary.
- 9** **SL-C 73** Can Portell holm oaks
Starting point: Hortsavinyà Information Centre. Hortsavinyà neighbourhood (Tordera).
- 10** **SL-C 74** Vila bridge
Starting point: Bon Dia rock. Forest Park (Mataró).
- 11** **SL-C 76** Path from El Puig stream to El Corral*
Starting point: Arenys de Munt. Information Centre. Can Jalpi park (Arenys de Munt).
- 12** **SL-C 77** Can Vilar and Sot de Can Montasell
Starting point: At the end of Carrer de Mataró, Vallgorguina.
- 13** **SL-C 78** L'Erola chapel
Starting point: Hortsavinyà Information Centre. Hortsavinyà neighbourhood (Tordera).
- 14** **SL-C 79** Olzinelles valley
Starting point: Can Draper (Sant Celoni).
- 15** **SL-C 80** Ca l'Arenes dolmen
Starting point: Can Bosc (Dosrius).
- 16** **SL-C 101** Pineda stream valley
Starting point: Pineda church.
- 17** **SL-C 102** Les Torrenteres
Starting point: Puigvert park (Sant Cebrià de Vallalta).
- 18** **SL-C 103** Montnegre crests
Starting point: Sant Martí de Montnegre (Sant Celoni).
- 19** **SL-C 105** The Forcs plain
Starting point: Sant Iscle de Vallalta.
- 20** **SL-C 106** Sant Corneli
Starting point: Sant Iscle de Vallalta
- 21** **SL-C 110** From Vallgorguina to Olzinelles
Starting point: Path at the end of Carrer del Montnegre (Vallgorguina) in the La Solana neighbourhood.
- 7 Dosrius**
Starting point: The car park of Can Bosc farmhouse in Dosrius.
- 22** **7a Dosrius**
Starting point: The car park of Can Bosc farmhouse in Dosrius.
- 23** **7a Dosrius**
Starting point: The car park of Can Bosc farmhouse in Dosrius.

The distances of the routes have been calculated with the goolTracking platform and may vary significantly if other measuring systems are used.

English

The park

Situated in the coastal mountain range, the park is made up of two great massifs, El Corredor and El Montnegre. Due to its location in the coastal region, the park's vegetation boasts a richness typical of Atlantic and continental climates. Neolithic dolmens, archaeological remains from the Iberian period and medieval churches are dotted amid a landscape surrounded by crops, woods and farmhouses.

BASIC INFORMATION:
 Year of park constitution: 1989
 Protected area: 15,010 ha

Barcelona Provincial Council's Natural Park Network
 Castell de Montesquiú Park, Les Guilleries-Savassona Natural Area, El Montseny Natural Park, Sant Miquel del Fai, Sant Llorenç del Munt i l'Obac Natural Park, El Montnegre i el Corredor Park, Serralada Litoral Park, Serralada de Marina Park, El Besòs River Park, Serra de Collserola Natural Park, El Baix Llobregat Agrarian Park, El Garraf Park, Ollerdola Park and El Foix Park.

Gerència de Serveis d'Espais Naturals

Parc a taula is an economic development programme promoted by Barcelona Provincial Council aimed at private agents who, through their activity, assist in the conservation, enhancement and promotion of protected natural areas. You can find and download more information at parcs.diba.cat/web/parc-a-taula and on the following app:

Parc a taula

Useful advice for visiting the park

Good practices

The protected natural spaces are places where one can practise outdoor activities and learn about our natural and cultural heritage. Use the marked paths and trails.

Use of bicycles

- Respect the priority of pedestrians and avoid causing inconvenience to them.

- Adjust your speed in accordance with the type of path. On trails, the maximum speed permitted is 30 km/h.

- Cycle only on roads, forest trails or paths that are more than three metres wide.

- For justified reasons, in certain areas of the park, cycling may be restricted temporarily or permanently.

Motor vehicles

- The use of motor vehicles is limited to public trails; travelling cross-country across firebreaks or over streams and riverbeds is not permitted.

- Remember that the maximum speed permitted on paths is 30 km/h.

- Moderate your speed in order to avoid collisions with people or wildlife.

- The noise caused by some vehicles is harmful to sensitive species, such as birds of prey, which may abandon their nesting areas.

- Erosion caused by skidding causes potholes and ditches to appear on the road network. Drive with moderation and restraint, particularly on slopes and when the ground is wet.

- Do not park in front of chains that cut off access to paths or on road verges.

Visit the park safely

- Plan your route and always bring a map to guide you.

- Try to always walk on trails or paths that are clearly marked or signposted.

- Bring water and food supplies and wear appropriate footwear, comfortable clothing and a coat, as well as a cap, sunglasses and sunscreen.

- If you are in a group, do not lose sight of your companions. Do not ever abandon or leave anybody behind.

- Strong wind can cause branches and other elements to fall. The risk of accidents may be greater on peaks and on crests. Avoid open spaces during high wind conditions.

- When it is foggy it is easy to become disoriented; do not stray from the main path.

- In the event of downpours or thunderstorms, stay away from peaks, isolated trees and cave entrances. A dense and leafy forest may provide suitable coverage.

What to do with litter

- It is the responsibility of visitors to take the waste that they have created away with them and to recycle it.

How to help prevent fires

- It is prohibited to light fires or barbecues outside authorised areas.

- Exercise caution with anything that could cause fires, such as cigarettes, driving/motorcycling or dropping litter.

- Raise the alarm if you detect any suspicious smoke. Call 112.

Pets

- Pet owners are responsible for their behaviour not disturbing the activity or inhabitants of the park or other visitors.

- Keep your dog on a lead. You must take special care with regard to the behaviour of your dog or other pets, particularly when close to people, farmhouses or flocks.

- Clean up animal excrement, particularly in areas with a high number of visitors.

- Never abandon pets; such negligence is classified as an offence. Animals can become aggressive, as well as being harmful to natural ecosystems.

- In addition to being kept on a lead, dangerous dogs must also wear a muzzle. By dangerous dog we mean that which is classified as such in law, but also any dog that behaves aggressively.

Other recommendations

-  If there is a risk of snow or it has snowed, check road and trail conditions on the park's website. Drive with caution, respect the signals and signs of the guards and wardens.

-  Free camping is not permitted in any of its forms, including motorhomes. Camping is only permitted in areas designated for this purpose.

-  Human presence and activity in El Montnegre and El Corredor have left behind a host of architecture and art over the years. This rich cultural heritage must be respected.

-  Respect the nature and the peacefulness of the environment. Avoid making unnecessary noise.

-  Respect agricultural and stockbreeding activities, since they provide the livelihood of many of the park's inhabitants.

-  Logging is a traditional activity in most of the parks. Tree felling is regulated by the Forestry Act of Catalonia and park regulations.

-  To protect native wildlife populations, it is prohibited to release pets or outside animals that could displace them from their habitat.

-  Hunting is regulated by law and is only allowed in existing hunting grounds. If you encounter a wild boar drive, you must respect the signs and not stray from the paths.

-  Fishing is only permitted in controlled fishing areas (ZPC) during the appropriate established periods, with the corresponding licence and fishing permit, and in accordance with current legislations.

-  Horse riding must be restricted to public paths; cross-country riding and riding on firebreaks or streams and riverbeds is not permitted.

-  If picking mushrooms, do not destroy the forest by using tools or digging into the earth.

-  Chestnuts and pines are the food source of various animal species, as well as an economic resource for forest owners. Collect a moderate amount and always with the authorisation of the owners.

-  Holly is a rare tree that provides food and shelter for many species of animals. It is protected by law and collecting any part of the tree or its flowers is an offence.

Characteristics

Vegetation

The park's geographic location conditions its climate and the vegetation that covers the mountain ranges. Cork oak, holm oak and pine forest characteristic of Mediterranean climates are most prevalent. Due to the increased humidity in some areas, oak woods, chestnut groves, alder groves and even common beech trees appear in the more elevated, shady areas of the park. In the lower, flatter areas of the mountain ranges, forest cover is less prevalent with increased open spaces such as meadows, cropland and pastures.

Wildlife

The park's wildlife population is diverse and abundant, including wild Mediterranean species, such as the common genet, the common dormouse, the squirrel, the goshawk, the green woodpecker, the jay and the ladder snake, and animals from Central European environments such as the marten, the bank vole, the woodcock and the common midwife toad. The open areas of the park are particularly rich in wildlife and are vital for predators such as the short-toed eagle, the buzzard, the fox, the Montpellier snake and the lizard, since they provide their basic food sources.

Architectural heritage

Along the main track that runs from Can Bordoi to near Vallgorguina there are various historical buildings of architectural interest, such as the Can Bordoi farmhouse (documented in the 13th c. and rebuilt at the beginning of the 20th c.), the church of Sant Cristòfol (12th century), the church of Sant Andreu del Far (12th century), Vell castle in Llinars del Vallès, the Iberian town of Turó del Vent (4th century BC), Can Bosc (16th century) and Corredor sanctuary (16th century) which was rebuilt in accordance with the late Gothic style. On the slopes closest to the sea, there are also examples of religious architecture, such as the churches of Sant Miquel de Mata (11th century), Sant Martí de Mata (pre-Romanesque, 9th century) and Llorita chapel (16th century). El Montnegre massif is also the site of isolated ancient parishes, of which those in Fuirosos (14th century), Ramió (12th century), Vallmanya (11th century) and Hortsavinyà (11th century) are particularly notable. Hermitages can also be found in more elevated areas, such as Santa Maria (18th century), Sant Martí (doc. 11th c., current building 18th c.) and L'Erola (18th century), as well as the ruins of the ancient Roca Rossa monastery. Closer to the sea are some noteworthy buildings such as Montpalau castle (20th century), the church of Sant Pere de Riu (12th century) and the Roman aqueduct of Can Cua (3rd century), near Pineda de Mar.

The dolmens

The coastal mountain range witnessed a proliferation of megalithic phenomenon, a movement that began during the middle neolithic period. The monuments erected in the mountain range are representative of the final period of megalithism, which developed throughout the third millennium. Dolmens were intended as burial sites for the main members of the community. Built from flagstones to form a box-like chamber, they were covered by a mound of earth and most often surrounded by a stone circle. Inside the park, the Pedra Gentil (close to Vallgorguina), Ca l'Arenes (Dosrius) and Pedra Arca (between Llinars del Vallès dolmens, among others, have been preserved.

Borrowing adapted equipment

In the Office of El Montnegre i el Corredor Park you can find information about a hire service for adapted equipment consisting of handcycles and third wheels for adapting users' wheelchairs as well as different tactile materials. The service is free and a hire form must be filled out. Tel.: (+34) 938 679 452 and (+34) 938 679 092.

You can find more information at parcs.diba.cat/web/montnegre.
